## **LAGGING ADHESIVE AND COATING**

714 NG is a high-quality, fire-resistant lagging adhesive and coating to be used over moderate temperature insulation systems. 714 NG has a full bodied consistency which minimizes sagging and dripping during application and has excellent brushability.

714 NG is normally used in conjunction with lagging cloth to secure and seal pipe insulation (or similar types of insulation). When dry, it provides a tight moisture resistant bond between cloth and insulation, and a surface which is resistant to mild alkalis, asphalt, acids and salts.

**714 NG CONTAINS NO ASBESTOS, LEAD, MERCURY OR MERCURY COMPOUNDS.**

714 NG may be applied by brush, spray or roller; when cured, it presents a washable and repaintable surface. Palm grade is available upon request.

714 NG, until thoroughly cured, must be protected during and after application from: precipitation, freezing, oil, grease and foot traffic.

714 NG meets the following qualifications:  
Complies with MIL-A-3316C, Class 1  
Passes Electric Boat 4013 Fire Test  
Meets MIL-DTL-24244D(SH) & NRC 1.36

**NOTE:**

Do not thin.  
Protect from freezing.

In accordance with OSHA Standard 29 CFR 1910.12 (Right to Know Law) a Material Safety Data Sheet is available for the product and all Vimasco products.
